INSTITUTO DE NEUROCIENCIAS

The IN Christmas Meetings are conceived with the specific goal of facilitating the contact between the Instituto de Neurociencias (IN) and young Neuroscientists working abroad. Sessions will cover all fields in Neuroscience

We have an excellent experience in conducting meetings shortly before Christmas convening postdoctoral fellows and young independent investigators, who are resident abroad, but happen to be in Spain around that time of the year. Such meetings are particularly well suited to keep contact with expatriates and to screen them for possible recruitment and/or stir their interest in returning to their home country.

14th

Christmas Meeting

20-21 December 2017

Alicante, Spain

The Instituto de Neurociencias is today the largest institution devoted monographically to brain research in Spain. It is a joint centre of the Universidad Miguel Hernández de Elche (UMH) and the Consejo Superior de Investigaciones Científicas (CSIC) located in the village of Sant Joan near the city of Alicante. In the IN there are currently working more than 30 research groups in all fields of modern Neuroscience, from the genetic and molecular control of nervous system development to the cellular mechanisms of perception.

APPLICATION

There are no registration forms or registration fee. Scientists who wish to give a talk should send the following information to ChristmasMeeting@umh.es:

1. Title and brief abstract (max. 200 words).
2. CV including list of publications and current working address (max. 1 page)

FINANCIAL SUPPORT

IN will provide accommodation in a Residence/Hotel close to the IN, meals and partial financial support towards travel expenses to those researchers selected to give a talk.

Organisation: Javier Morante
