

12th IN Progress Report Workshop

06 & 07 July 2017

06 July, 2017

15:45 Coffee

16:00 Introduction: Salvador Martínez

Session I. Chairperson: Javier Morante

16:10 Cristina Marquez: Social modulation of decision making

16:40 Luis Miguel Gutierrez: Integrating the molecular players in the mechanism of exocytosis

17:10 Sandra Jurado: Reshaping Neural Circuits and Synapses

17:40 Coffee

Session II. Chairperson: Ramon Reig

18:00 Eduardo Puelles: Building the connectivity of the limbic system

18:30 Paco Tejedor: The Down Syndrome Candidate Homolog Mnb/Dyrk1A Orchestrates a Transcriptional Network that Regulates the Birth of CNS Neurons

19:00 Salvador Martínez: Cellular-mediated inflammation and immune regulation in ALS and Glioblastoma

07 July, 2017

Session III.

Chairperson: Cristina Marquez

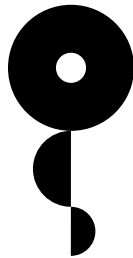

- 10:00 Ramón Reig:** Sensory processing in the cortico-striatal circuits
- 10:30 Santiago Canals:** Binding pieces in a network
- 11:00 Emilio Geijo:** Local neuronal circuits of the retrosplenial cortex
- 11:30 M^a Carmen Acosta:** Mechanisms underlying tear flow regulation and discomfort sensations associated with lacrimodeficiency and contact lens wearing
- 12:00 Coffee**

Session IV.

Chairperson: Sandra Jurado

- 12:30 Guillermina Lopez-Bendito:** Building cortical functional sensory maps under the control of patterned thalamic activity
- 13:00 María Domínguez:** Mechanisms of growth control and cancer in *Drosophila*
- 13:30 Ángela Nieto:** Organ positioning in vertebrates

Organizer: Dr. Javier Morante.
